Develop our Character
Muscles further so that
we work with a very
good level of
independence.

To remember to use selfassessment and feedback from adults to help improve our learning. Improve our writing, especially during purple pen editing sessions, by taking care with spelling, using interesting vocabulary and punctuating sentences accurately.

To develop our skills in DT, Art, Music and French.

Child Friendly School
Improvement Plan 2023-24

What are we doing to make our school even better?

To keep going when things get challenging, because we are committed to our learning.

To strengthen our problem solving and reasoning skills in maths lessons.

To learn that it's ok to ask for help from an adult in school if I'm feeling worried or anxious

about something.

To become more fluent in arithmetic and our times tables.

To show pride by presenting work as neatly as we can.

To take part in lots of lunchtime or after-school clubs so that our talents and interests are discovered and we develop new skills.

To develop our love of books and reading by reading more at home.
