

Orchard Community Primary School

Assessment & Reporting Policy

This policy was approved by the Governing Body of Orchard Primary School at their meeting on.....

Signed..... Chair of Governors

Version	Date	Author	Reason for Change
0.1	9/2019	FS	Updated Policy to reflect new practice

Review Frequency	Next Review Date
Every 3 years	9/2022

1. Aims

This policy aims to:

- Provide clear guidelines on our approach to formative and summative assessment
- Establish a consistent and coherent approach to recording summative assessment outcomes and reporting to parents
- Clearly set out how and when assessment practice will be monitored and evaluated

2. Legislation and guidance

Since the removal of National Curriculum levels in 2014, schools have been free to develop their own approaches to assessment.

This policy refers to the recommendations in the Final Report of the Commission on Assessment without Levels. It also refers to statutory reporting requirements set out in the Education (Pupil Information) (England) Regulations 2005: schedule 1.

3. Principles of assessment

To ensure that:

- assessment is a continuous process which is integral to teaching and learning, based on best practice, focusing on the curriculum and that it lies at the heart of promoting children's education
- high quality teaching is supported and informed by high quality formative assessment (ongoing assessment)
- the school ethos promotes and emphasises the opportunity for all children to succeed when taught and assessed effectively
- there is always a clear purpose for assessing and assessment is fit for its intended purpose
- assessment is used to focus on monitoring and supporting children's progress, attainment and wider outcomes
- assessment supports informative and productive conversations with staff, children and parents
- children take responsibility for achievements and are encouraged to reflect on their own progress, understand their strengths and identify what they need to do to improve
- we achieve our assessment without adding unnecessarily to teacher workload
- assessment is inclusive of all abilities
- a range of assessments are used 'day-to-day in-school formative assessment, in-school summative assessment and nationally standardised summative assessment

4. Assessment approaches

At Orchard, we have adopted the following key principles for assessment:

- Pupils are at the heart of assessment; any assessment needs to offer all children an opportunity to show what they know, understand and can do to improve
- Assessment should provide a view of the 'whole learner'
- Assessment is a continuous process integral to teaching and learning; it should provide information to support progression in learning through effective planning as well as information for target setting for individuals, groups and cohorts
- In order to raise standards of learning, assessment should be used to help pupils know and recognise the standards they are aiming for
- Accurate, reliable judgements about how learners are doing in relation to national standards and expectations must underpin assessment
- Data should provide the school with information to evaluate its work and set suitable targets for further improvement

We use three broad overarching forms of assessment: day-to-day in-school formative assessment, in-school summative assessment and nationally standardised summative assessment.

4.1 In-school formative assessment (assessment for learning)

Effective in-school formative assessment is the day-to-day assessment, which is carried out by teachers and support staff and is key to effective classroom practice. It enables:

Teachers and/or Support Staff to identify how pupils are performing on a continuing basis and to use this information to provide appropriate support or challenge, evaluate teaching and plan future lessons

Pupils to measure their knowledge and understanding against learning objectives, and identify areas in which they need to improve

Parents to gain a broad picture of where their child's strengths and weaknesses lie, and what they need to do to improve

A range of day-to-day formative assessments will be used including, for example:

- Rich questioning
- Verbal and written feedback of children's work
- Observations
- Pupil self-assessments
- Peer marking
- Pupil conferences

4.2 In-school summative assessment

Effective in-school summative assessment enables:

The Senior Leadership Team to monitor the performance of pupil cohorts, identify where interventions may be required, and work with teachers to ensure pupils are supported to make progress and attain personal learning goals

Teachers to evaluate learning at the end of a unit or period and the impact of their own teaching

Pupils to understand how well they have learned and understood a topic or course of work taught over a period of time. It should be used to provide feedback on how they can improve

Parents to stay informed about the achievement, progress and wider outcomes of their child across a period

At Orchard, pupils in Y1-6 are assessed periodically and progress and attainment data is recorded on the assessment system 'Classroom Monitor'. Assessments for Reading, Writing and Maths are carried out three times a year in November, February and June. Assessment information for the Foundation subjects is inputted at the end of the academic year.

Teacher Judgements on 'Classroom Monitor', which are made against Key Performance Indicators (KPIs) for both Reading, Writing, Maths and Science, as well as for the Foundation subjects, relate to National Curriculum Age Related Expectations. Based on the percentage of KPIs accomplished, the tracking system will state whether a child is working Significantly Below Age Related Expectation (0%-44% of KPI coverage); Below Age Related Expectation (45%-54%), at Expected (55%-80%); Above (81%-98%); or Significantly Above (99%-100%). These percentages are based on the DFE average percentage scores for a scaled score of 100 at the end of KS2 SATS

These assessments are used to monitor the performance of individuals, groups and cohorts; to identify where interventions may be required; and to work with teachers to ensure that children are supported to achieve at least

sufficient progress and expected attainment. Test materials are used at the end of units or the academic year to support teachers with making accurate teacher assessment judgements.

A range of in-school summative assessments will be used including, for example,

- Cold and Hot Writes
- White Rose Maths End of Unit Assessments
- White Rose Maths End of Term Assessments (x1 Arithmetic; x1 Reasoning)
- Accelerated Reading Star Reading Test to establish a ZPD
- Rising Stars Written Comprehension Tests bar Y2&Y6
- Spelling Test at the end of each term
- Reviews of progress against individual targets for pupils with SEN
- Teacher judgements on Insight relating to the National Curriculum age related expectations

4.3 Nationally standardised summative assessment

Nationally standardised summative assessment enables:

School leaders to monitor the performance of pupil cohorts, identify where interventions may be required, and work with teachers to ensure pupils are supported to achieve sufficient progress and attainment

Teachers to understand national expectations and assess their own performance in the broader national context

Pupils and parents to understand how pupils are performing in comparison to pupils nationally

Nationally standardised summative assessments include:

- Early Years Foundation Stage (EYFS) profile at the end of the Reception year
- Phonics screening check in Year 1
- National Curriculum tests and teacher assessments at the end of Key Stage 1 (Year 2) and Key Stage 2 (Year 6)

5. Assessment and Reporting in the Foundation Stage

On entry to Reception, our pupils are assessed using a school-devised Baseline Assessment. Information from baseline ‘testing’ is recorded and used to inform planning, to predict future outcomes and to set targets. It also aids the early identification of pupils with additional or special needs.

Throughout the Foundation Stage, children are assessed using the EYFS Profile and Development Matters Bands. Foundation Stage staff make on-going, detailed observations and assessments of children on a day to day basis which are then recorded using ‘Tapestry’ – an online learning journey. Each term, every child’s developments and achievements are tracked and recorded on the school’s tracking system.

‘Observations’ in the three prime and four specific areas are used to assess progress in all areas of learning and are used both to inform planning of activities and the learning environment and to provide data for end of year assessments and profile scores.

6. Standardisation/Moderation

It is important that when teacher assessments are carried out, there is evidence recorded to justify judgements made. Moderation is therefore important to ensure a consistent approach in assessment throughout the school. At Orchard:

- Teachers and SLT meet on a half termly basis to analyse and moderate reading, writing or maths assessments. The format and focus of this moderation is decided on a termly basis by the Headteacher.
- Subject Leaders also moderate work through planning and book scrutinies, feeding findings back to members of staff.

- Y2 and Y6 teachers attend standardised assessment training sessions run by the LA to ensure our judgements are in line with other schools.
- During the summer term, teachers in Reception, Year 2 and Year 6 are involved in formal teacher assessments, as part of end of Key Stage assessments and Local Authority moderation.
- We participate in moderation schemes alongside other schools within the Castle Donington collaborative and other learning networks, such as Loughborough Learning Alliance.

7. Reporting to parents

Through our reporting mechanisms, parents' meetings and termly progress check reports, we provide parents with succinct, consistent information about the curriculum and their child's achievements in accordance with national requirements.

Parents' Evenings are held twice a year in the Autumn and Spring terms. Parents are also given the opportunity to meet with teachers whenever the need arises and after receiving their child's annual report at the end of the Summer term.

Annual reports to parents include:

- Brief details of achievements in all subjects and activities forming part of the school curriculum, highlighting strengths and areas for development
- Comments on general progress
- Arrangements for discussing the report with the pupil's teacher
- The pupil's attendance record, which will include the total number of possible attendances for that child and the total number of unauthorised absences for that child, expressed as a percentage of the possible attendances.
- The results of national statutory assessments, where relevant

Progress Check Reports are sent to parents at the end of the Autumn and Spring Terms. They provide information on a child's effort and behaviour, as well as brief comments on the term's work, and progress against Age Related Expectations.

8. Inclusion

The principles of this assessment policy apply to all pupils, including those with special educational needs or disabilities. Assessment will be used diagnostically to contribute to the early and accurate identification of pupils' special educational needs and any requirements for support and intervention.

We will use meaningful ways of measuring all aspects of progress, including communication, social skills, physical development, resilience and independence. We will have the same high expectations of all pupils. However, this should account for the amount of effort the pupil puts in as well as the outcomes achieved.

For pupils working below the national expected level of attainment, our assessment arrangements will consider progress relative to pupil starting points, and take this into account alongside the nature of pupils' learning difficulties.

9. Training

After joining the school, all teachers will be provided with a copy of this policy and it will form part of the induction program. In all staff meetings and training, there will be an emphasis on teachers having a good understanding of assessment and assessment practice. Continuing professional development may take various forms including the provision of direct face to face training and online training.

The Assessment Leader will ensure that best practice is shared and will endeavour to keep up to date with latest research. The Assessment Leader will also attend any Primary Assessment Network meetings and subscribe to the weekly Assessment Update email from Standards and Testing Agency.

External assessment systems will be continually reviewed and evaluated to ensure that they support the delivery of the school's assessment policy and are in line with the aims and principles outlined.

10. Roles and responsibilities

10.1 Governors - Governors are responsible for:

- Being familiar with statutory assessment systems as well as how the school's own system of non-statutory assessment captures the attainment and progress of all pupils
- Holding school leaders to account for improving pupil and staff performance by rigorously analysing assessment data

10.2 Headteacher - The headteacher is responsible for:

- Ensuring that the policy is adhered to
- Monitoring standards in core and foundation subjects
- Analysing pupil progress and attainment, including individual pupils and specific groups
- Prioritising key actions to address underachievement
- Reporting to governors on all key aspects of pupil progress and attainment, including current standards and trends over previous years

10.3 Teachers - Teachers are responsible for following the assessment procedures outlined in this policy

11. Monitoring

This policy will be reviewed every three years by the Assessment leader. At every review, the policy will be shared with the Curriculum and Standards Committee.
